Model Designator for OACS-BC Series Central Chillers

OACS-10S-M1-1P-BC

OACS Series

Nominal Compressor Horsepower

> Zones S: Single Zone D: Dual Zone

Number of Pumps

- 1: Single Process Pump
- 2: Process & Evaporator Pumps 3: Process, Evaporator & Standby Pumps

Controller
M1: Single Zone
MZC: Dual Zone
PLC: Single or Dual Zone

6. Dimensions are approximate and may change based on options and features selected. Do not use for construction.
7. FLA: full load amps with standard pumps and condenser. RLA: run load amps with standard pumps and condenser.
Optional standby pumps, larger pumps or alternate condensers may change this rating. Do not use for construction.

Standard Features

REFRIGERANT ZONES:

- Hermetic scroll compressors on 5-60 HP single zone units using HFC-410A refrigerant
- Rotary screw compressors on 75 125 HP single zone units using HFC-407C refrigerant.
- · Liquid line solenoid valve.
- · Refrigerant sight glass with moisture indicator.
- · Thermostatic expansion valve
- · Brazed plate or shell & tube evaporators
- System capacity control
 - Hot gas by-pass (single compressor units with scroll compressor)
 - Unloading (units with screw compressor)
 - Digital compressor unloading (units with digital scroll compressor)
 - Digital compressor unloading and compressor staging (units tandem or multiple compressors)
- Integral Air-cooled condenser with vertical air discharge
- · Fully charged with non-ozone depleting refrigerant

PRESSURE INDICATION:

- Refrigerant low pressure
- · Refrigerant high pressure
- Coolant pressure

COOLANT CIRCUIT:

- · Large capacity process pump
- Evaporator pump (when included)
- Reservoir
 - Polyethylene or stainless steel (wetted surfaces) construction
 - Full insulation
 - Tank lid

ELECTRICAL:

- · Outdoor rated electrical cabinet
- UL 508A compliant enclosed panel
- · Branch circuit fusing
- 5 kA RMS SSCR

CHILLER CONTROLS:

- M1 (single zone units)
- Multizone (large capacity single zone units)
- M1D (single zone units with digital scroll compressor)

SUPPORT:

- Equipment selection assistance standard
- · Facility pipe sizing & routing drawings standard
- Quick online selection tool (www.advantageengineering.com/BC)
- Quick online pricing available 24 7 (www.advantageengineering.com)
- · System start up assistance and training optional

WARRANTY:

- 1 Year covering parts and labor
- Free preventative maintenance check in the 2nd year
- 4 Years covering the control instrument

Options

REFRIGERANT ZONES • Digital scroll compressors - For energy saving capacity control (not available on all models) • Condenser coils with protective coating - For longer life in harsh environments • Greater capacity condenser - For full system capacity at ambient air temperature above 95°F • Staged tandem scroll compressors on single zone units - For superior capacity staging

COOLANT CIRCUIT • Larger process pumps • Standby pumps and/or manifold • Reservoir heater (mild or stainless steel tanks only) • No pumps or reservoir • Basket strainer • Overhead pipping kit • Low reservoir level switch • Epoxy coated mild steel reservoir construction

ELECTRICAL· Main power disconnect • Line voltage & phase monitor

WARRANTY • Extended compressor warranty

DVANTAGE MAKING WATER WORK.
